EXPERIENCE

Technical Account Manager

Jan 2025 - Mar 2026

Deputy, Melbourne, Australia

- Managed a \$1.5M+ ARR B2B SaaS client portfolio across ANZ enterprise and mid-market customers, supporting technical consulting, software adoption and post-onboarding success
- Led 20+ custom software implementation projects by running customer discovery workshops, defining success plans and coordinating delivery across internal and external teams
- Conducted fortnightly strategic calls with key enterprise clients to establish customer feedback loops, highlight product-driven ROI and provide guidance toward operational goals
- Delivered simultaneous software implementations across multiple clients, using structured prioritisation to keep technical setup, stakeholder alignment and delivery timelines on track
- Developed JavaScript API scripts to perform bulk platform queries and product configurations, reducing complex software setup work from 6 hours of manual clicks to 20 minutes
- Proactively researched, troubleshooted and resolved a complex software configuration issue for a client, removing 4+ hours of daily manual intervention and contributing to a client referral
- Used Jira and Asana to manage cross-functional delivery, resolve onboarding blockers and provide post-go-live advisory that supported product adoption and customer engagement
- Delivered a 3-part strategic audit workshop for an enterprise client, providing consultative guidance and leading to appointment as their dedicated technical advisor

Customer Success Coordinator

Feb 2024 - Dec 2024

Lexer, Melbourne, Australia

- Managed a \$500K ARR portfolio of APAC retail clients, supporting customer success, platform adoption and marketing campaign strategy across a customer data platform
- Facilitated Quarterly Business Reviews by preparing presentation decks with Mixpanel product usage data and customer sales data, then presenting insights and recommendations for marketing process optimisation
- Conducted 10+ product training sessions with new clients and internal teams via Google Meet and in person, tailoring product guidance to business use cases which contributed to product adoption
- Maintained HubSpot CRM records to track account health, stakeholder context and strategic priorities, supporting proactive issue management and growth conversations across Sales and Customer Success
- Facilitated a custom integration request by reviewing external API documentation and creating system mapping documents, which converted into a \$15K implementation project
- Completed HubSpot marketing courses and applied the learnings in client WIPs, using inbound marketing and campaign optimisation concepts to provide stronger consultative guidance
